

TRICKS TO BEAT WRITER'S BLOCK

What to do when you are struggling to get started

1 FREEWRITE

Write nonstop for 5 or 10 minutes. Keep writing even when you can't think of anything. Don't stop to make changes.

2 READ A MENTOR TEXT

Read for strategies and inspiration. Pay attention to how the author starts the piece.

3 TAKE A WALK

Stroll around your classroom or hallway. (Get permission from your teacher first.)

4 CHAT WITH A PEER

Discuss your ideas and struggles with a classmate, friend, or family member.

5 WORK ON SOMETHING ELSE

Make progress on another piece of writing. Return to the trouble piece with confidence.

6 GET A SNACK

Energize and hydrate.

7 BRAINSTORM

Write down your topic. Then rapidly list as many ideas about it as you can—even wild ideas. Don't pause to judge.
